

Director of the UC San Diego Supercomputer Center

The University of California, San Diego, invites applications for the position of Director of the UC San Diego Supercomputer Center (SDSC; see <http://www.sdsc.edu/>). As an Organized Research Unit of UC San Diego, SDSC is a national leader in creating and providing cyberinfrastructure for data-intensive research. SDSC recently doubled its size to 160,000 square feet with a new, energy-efficient building and data center extension, and is a founding member of TeraGrid, the nation's largest open-access scientific discovery infrastructure.

Reporting to the Vice Chancellor for Research, the Director is responsible for managing the operation of SDSC, ([view position description](#)). The director will hold a full-time academic administrative position as well as a tenured professorial appointment for which a record of scholarly distinction and teaching are required; the appointment will be in an appropriate academic department at UCSD. Salary will be based on published UC pay scales. Review of applications will begin on October 5, 2009 and will continue until the position is filled. Send letters of application, curriculum vitae, and names, addresses, and contact information of three referees to:

Office of Research Affairs
Attn: Marianne Generales
University of California, San Diego
9500 Gilman Drive
La Jolla, California 92093-0043
mgenerales@ucsd.edu

Applicants are welcome to include in their cover letters a personal statement summarizing their contributions to diversity. UCSD is an equal opportunity/affirmative action employer with a strong institutional commitment to excellence through diversity.
